Yes, of course. Don't fret. I will keep the space until we hear from you, no problem. Just let me know when you all figure it out.

Can you hold the spot for Pat until early next week (Tuesday/Wednesday). He may need to adjust his schedule. I will get back to you as soon as possible.

Oh, sorry, Angela. The date and time are set. I don't have control over that.

But you could come! And we could try to work around Pat's schedule if he wants to go to 

Let me know what you think.

Jackie,

Pat wants to know if it is possible to move the tour to May 13. I didn't think so but thought I would ask anyway.

Angela

Hi Jackie,

I will check Pat's availability for the May 12 tour. I would be the second person attending the tour in [REDACTED] but it is ok if there are no more spaces. I can go on the next tour or the following one.

OK to Pat, I will check on the second slot.

Can you try to hold two spots for me and Elizabeth from the [REDACTED] tour. YES Also, I would need some lead time to get travel approved. When are the dates for the [REDACTED] tour? They are not yet scheduled but I will send you the doodle pool. Elizabeth and I will be attending a meeting June 1-2.

What about my question in #2 below?

Thanks,
Angela

Angela,

- 1.) I am sorry that I didn't think to ask your organization if they want to go on the tour. I think we should hold a space for Pat, so we will. I just don't know if we can get 2 spaces but I will see. Who would go with Pat if we do? It may help if I said it is someone integral to the study.

As I mentioned, we've scheduled the tour on May 12, from 1 – 3:30, of the [REDACTED] Main Facility and [REDACTED], both located near [REDACTED] processes whole tires at its main facility into 4" pieces, then sends them to the [REDACTED] (about 20 minutes away) where the pieces are reduced into rubber mulch. The tailings from the mulch processing are used to make the various sizes of tire crumb, including crumb for turf infill.

Please extend the invitation to Pat for now and I will check on the 2nd slot. Let me know if you have an idea who else might want to attend (you?). I will keep you posted on the [REDACTED] facility tour.

Here's how the roster breaks out so far (I will work on OLEM):

OLEM/EPA - 5 people
ORD/EPA – me, Tom Burke (probably)
CPSC – Eric Hooker and 1 chemist

We can bring 10 people total, so for now, Pat would be the tenth.

- 2.) The lawyers representing the Synthetic Turf Council and other industry groups (Nancy Nord, Eliot Belilos) would like to have the contact info. for CDC – you and Angela would be the appropriate people. Would you be agreeable to me providing that to them? If so, can you send me contact information for both of you? They will likely get it anyway, because I have to provide the contact information to Michael Peterson, who was on today's call.

- 3.) Lastly for now, I will go through and make sure that I've sent you my meeting notes and all materials that I've accumulated so far. At some point, we will have formal and final meeting minutes from OLEM, but that is taking some time.

Jackie
